## HCLSoftware Certified AppScan Standard Beginner 2024 Certification Exam Guide

---

### Introduction

This **foundation level** exam certifies that the successful candidate is familiar with the basic features of HCL AppScan Standard v10.x. The successful candidate must demonstrate a basic knowledge of HCL AppScan Standard Features. They must know how to use the AppScan Standard Features, AppScan Standard Results and AppScan Standard Stages.

### Recommended Skills

- Basic Knowledge of Security Concepts
- AppScan Standard – Scans and Scan Results
- AppScan Standard Controls
- AppScan Standard Manual Tests
- AppScan Standard Issue Management
- AppScan Standard Results and Reports
- AppScan Standard Stages

### Exam Format

- Multiple Choice – one correct response out of choices
- Multiple Response – two or more correct responses out of four or more choices
- Number of questions: 50
- Passing Score: 70% (35/50)
- Exam duration: 75 minutes

Unanswered questions are scored as incorrect; there is no penalty for guessing.

### Exam Results

The exam is scored using the method which is the lowest pass/fail cutoff score that a minimally qualified candidate is likely to achieve on the exam. This score was calculated by using a panel of subject matter experts who reviewed each question and performed an assessment of the level of difficulty of each question. This assessment is a prediction of the number of minimally qualified candidates that will answer the question correctly.

Based on this review, the minimum score required to pass the exam is **35** out of a possible of 50.

# HCL Software Certification Program

Your Score report could contain a table of exam competencies that illustrates your performance at each of the areas that were tested. This information is intended to provide general feedback about your exam performance and help you determine the areas where further study might be required. You do not need to achieve a passing score for each competency area. You only need to pass the overall exam.
