HCL Domino Administrator Course Descriptions

HDOM-ADM-FUND
HCL Domino Administration Fundamentals

Course Description

In this course, you will learn the fundamentals of administering HCL Domino version 12 by installing and configuring a small Domino domain from the ground up. Learn to work with Domino Administrator client. Get to know how Domino security works, from user IDs to server access to database ACLs. Configure mail routing between your Domino servers and between your network and the Internet. Configure replication between your Domino servers and find out how to control what replicates. Learn to troubleshoot mail routing and replication. Understand how to securely enable your Domino server to act as a web server.

Topics Include:

- **HCL Domino Installation & Configuration**
- **HCL Domino Administration Basics**
- **HCL Domino Security**
- **HCL Domino Mail Routing**
- **HCL Domino Replication**
- **HCL Domino Web Access**

Audience

Experienced HCL Notes users who want to learn how to install and configure a basic HCL Domino network.

Recommended Prerequisites

Must have experience using the HCL Notes version 12 client as an end user. No previous knowledge or experience of Domino administration or programming is required.

HDOM-ADM-101
HCL Domino Installation & Configuration

Course Description
This course will help you Install and configure HCL Domino version 12. You will learn the architecture and services of Notes/Domino, how to plan a Domino topology, and finally how to configure a small Domino domain from the ground up as an Administrator and a set of Users.

Audience
Experienced HCL Notes users who want to learn how to install and configure a basic HCL Domino network.

Recommended Prerequisites
Must have experience using the HCL Notes version 12 client as an end user. No previous knowledge or experience of Domino administration or programming is required.

HDOM-ADM-102
HCL Domino Administration Basics

Course Description
This course will introduce you to Domino Administrator client. We will walk you through the User Interface and features/functions of the Admin Client. You will explore the notes.ini File, server and configuration documents, use the server console, explore log files, and learn how a domino application is structured.

Audience
Experienced HCL Notes users who want to learn how to install and configure a basic HCL Domino network.
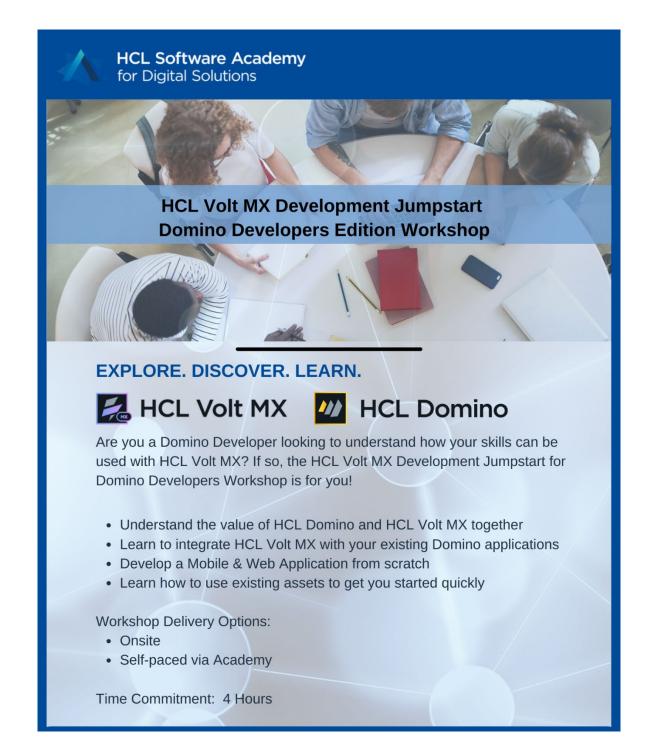

Recommended Prerequisites

Must have experience using the HCL Notes version 12 client as an end user. No previous knowledge or experience of Domino administration or programming is required.

Should have attended the introductory course:

HDOM-ADM-101 HCL Domino Installation & Configuration

Digital Solutions Academy Workshops

Workshops are designed to deliver a hands-on experience catered to a specific product and topic. Email ds.academy@hcl.com for more details on workshop registration.
